DETAILED ACTION

Double Patenting

1. Claim 28 is objected to under 37 CFR 1.75 as being a substantial duplicate of claim 21. When two claims in an application are duplicates or else are so close in content that they both cover the same thing, despite a slight difference in wording, it is proper after allowing one claim to object to the other as being a substantial duplicate of the allowed claim. See MPEP § 706.03(k).
2. Claims 1-7, 11, 12, 14-27 and 29-34 are allowable over the art of record.
3. Applicants arguments have been considered. A clarification on the reasons for allowance is added here. Applicant had indicated that a translated copy of the priority document had been filed, but such was not received. Kerchville is distinguished, since the crosslinked acrylic resin of claim 12 is not disclosed therein. In the case of Farnand, it is believed that acetic acid is included within applicants definition of natural, since such may be derived from distillation of wood byproducts. However, Farnand is distinguished by the teaching in claim 24 of an emulsion produced in the treatment of a well bore drilled in an oil based mud.

A telephone call was placed to applicants attorney of record, but it was indicated that he would be out of the office until October. Since the only issue remaining is an objection, it is requested that a telephone call be made to the examiner if this might expedite prosecution.

Art Unit: 1712

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
